Handbook of Army Personnel Tests

Personnel Selection and Classification

Handbook of Army Personnel Tests

By Order of the Secretary of the Army:

JOHN A. WICKHAM, JR.
General, United States Army
Chief of Staff

Official:

DONALD J. DELANDRO
Brigadier General, United States Army
The Adjutant General

History. This publication has been reorganized to make it compatible with the Army electronic publishing database. No content has been changed.

Summary. This pamphlet is designed as a handbook for all Test Control Officers who administer Army and DOD personnel

tests. Each table lists the test by title; and includes who may administer the test; the required references; and the components used in administering and scoring the test.

Applicability. This pamphlet applies to Test Control Officers (TCO) of the Active Army, the Army National Guard, and the United States Army Reserve who administer Army personnel tests. A copy of this document is to be maintained by each TCO to identify changes that occur within the Army personnel testing program.

Proponent and exception authority. Not applicable.

Impact on New Manning System. This pamphlet does not affect or implement the New Manning System.

Interim changes. Interim changes to this pamphlet are not official unless authenticated by The Adjutant General. Users will destroy interim changes on their

expiration dates, unless sooner superseded or rescinded.

Suggested Improvements. The proponent agency of this pamphlet is the US Army Soldier Support Center-National Capital Region. Users are invited to send comments and suggested improvements on DA Form 2028 (Recommended Changes to Publications and Blank Forms) directly to the Deputy Commander, US Army Soldier Support Center-National Capital Region, ATTN: ATZI-NCO-OD, 200 Stovall Street, Alexandria, VA 22332-0440.

Distribution. Active Army, ARNG, USAR: To be distributed in accordance with DA Form 12-9A, requirements for Personnel Selection and Classification-C.

Chapter 1 General

1-1. Purpose

a. This pamphlet is to be used with AR 611-5 (Army Personnel Selection and Classification Testing). It provides tables of current operational personnel tests and measures that are used for Army personnel selection, classification, assignment and utilization. It lists the components that are necessary to administer and score each test, as well as the unit of issue for each component. Tests used for skill qualification, proficiency and general education development are not included.

b. Personnel tests used by the Army include paper-and-pencil tests and other measures, such as board interview records, tape recordings, and specialized rating and evaluation forms. These tests provide information to the Army for more efficient use of personnel resources.

1-2. References

Required and related publications are listed in appendix A.

3. Explanation of Terms and Unit of Issue Codes

a. Test components are identified by use of the following terms and definitions:

(1) *Manual*. Contains instructions for persons who administer the test, conduct the interview, or make the evaluation, as applicable. Normally, instructions for scoring test results are in the "manual" unless a "scoring machine" is listed as a test component.

(2) *Test Booklet*. Contains the questions or problems to be answered or solved by persons being tested.

(3) *Tape Recording or Cassette*. Magnetic tape that contains part of a test for use in conjunction with, or in place of, a "manual" or "booklet." The inches per sound (IPS) recording speed is shown for each tape recording listed.

b. Unit of Issue Codes are defined as follows:

(1) Booklet	BKL
(2) Cassette	CASS
(3) Card (Scoring Keys and Templates)	CD
(4) Chart	CHART
(5) Cut Sheet	CS
(6) Cut Sheet with 2 Forms	CS2
(7) Cut Sheet with 3 Forms	CS3
(8) Magnetic Tape Recording	MTR
(9) Set	ST
(10) Set—3 part	ST3
(11) Unit	UNIT
(12) Video Cassette Tape	VCT

1-4. Designation of test components

a. The components of tests used only by the Department of the Army are designated as either DA Pamphlets or DA Forms.

b. An exception to the above includes test forms used by all services which are listed as DOD or DLI. DOD forms include the Armed Services Vocational Aptitude Battery (ASVAB), the Armed Forces Classification Test (AFCT), and the Defense Language Aptitude Battery (DLAB). DLI forms consist of test components of the second generation Defense Language Proficiency Tests (DLPT-II) and the Defense Language Reading Proficiency Tests (DLRPT).

c. All test materials used in administering and scoring a test or battery are considered a test package. In addition, Q and K Control forms are provided for tests which have machine scorable answer sheets.

1-5. Requisition of test components

Designated Test Control Officers of the Active Army, the Army Reserve, or the Army National Guard will use DA Form 4569 (USAAGPC Requisition Code Sheet) to requisition test material. Procedures for preparing requisitions are contained in DA Pam 310-10 and, once completed, must be processed through Commander, US Army AG Publications Center, 2800 Eastern Boulevard, Baltimore, MD 21220. The material will be shipped by US Army AG Publications Center, St. Louis, MO.
