### **Camp Williams Takes Delivery of New Firefighting Capability**

CAMP WILLIAMS, Utah – In a ceremony to be held here Monday, May 3, at 10 a.m., the Utah National Guard will unveil its new water tender, a field-mobile, water-storage container to enhance its wildland firefighting program.

The tender, manufactured by Danko Emergency Equipment, of Snyder, Neb., will support initial-attack operations on wildfires as a mobile water source for the four brush trucks received last year. The apparatus can also function as a tactical tender due to its pump-and-roll capability.

Specifications for the water tender include the following:

- M2 106 Freightliner conventional chassis
- 3,000-gallon, wet-side, low-profile T water tank
- 30-gallon foam cell
- Hannay hose reel with 200 feet of ¾-inch booster line
- Hale FoamLogix 2.1 system
- Waterous E511-A portable pump
- Briggs and Stratton 26.5-horsepower motor

The ceremony will be held on the east side of Building 8000 at Camp Williams.

**Media Notes:** Camp Williams is located at 17800 S. Camp Williams (Redwood) Road at the Salt Lake-Utah County line. Interested media should report to the main gate and will be directed to the ceremony site. Please contact 1<sup>st</sup> Lt. Ryan Sutherland at (801) 390-4921 for more information.
